

stardust i keep

all i know
is that he's the one i'm dreaming of
though he's gone
there's the reverie of our love

i don't want him back
for i know he's not for me.
but when i look at the moon
it's him i see.

always him i see
tapping into memory
every night in my sleep
in the stardust that i keep...

tapping into memory
every night in my sleep
in the stardust that i keep

in the dark
he was not afraid to hold me
stars are gone
and so the faith
he used to have in me

i don't want him back
for i know he's not for me
but when i look at the moon
it's him i see.

always him i see... (repeat chorus)

headstrong

honey - you have only got yourself to blame
everyday you live within a frame
can't see past it

honey - there is nothing that you cannot do
if you trust what's known inside of you
go and get it

but you're so headstrong
don't know what to feel
headstrong, society at the wheel
headstrong, time is passing you by
you should learn how to fly

honey - if you search the key to happiness
you won't find it in your emptiness
don't you get it?

honey - now's the time
to make your dreams come true
if you wait they'll drift away from you
before you know it.

but you're so headstrong
don't know what to feel
headstrong, society at the wheel
headstrong, time is passing you by
you should learn how to fly

spark within

don't want no man
to buy me flowers
i want a man
who plants an apple tree

don't want no man
to pass the hours
i want a man
who has time for me

it takes some time to conquer the heart
but much more faith
not to grow apart
focus on love and you'll understand
life you receive is all the thoughts you send

so be happy
start with yourself
ignite a spark
within yourself

i'll be the wife
you'll love to come home to
won't be the girl with great expectancies
i'll be the wife
your friends may want, too
just don't forget
they're not meant for me

it takes some time to conquer the heart
but much more faith
not to grow apart
focus on love and you'll understand
life you receive is all the thoughts you send

so be happy
start with yourself
ignite a spark
within yourself

eye candy

eye candy, come here and make love to me
you're orange blossom honey, sweet as can be

eye candy, the scent of your skin makes me
want to taste more of thee, from a to z

take me in your arms
i surrender to your charms
want to feel the warmth of you next to me

you inside my bed
is what truly makes me glad
when all is being said
let's just get it on instead

eye candy
just indicate you want me
and i drive my cooper mini like an audi tt.

eye candy
nothing on earth thrills me
as much as your love fills me
with joy and with glee

take me in your arms,
i surrender to your charms
want to feel the warmth of you next to me.

you inside my bed
is what truly makes me glad
when all is being said
let's just get it on instead
badadap da... (scat)

beware

girls - beware!
there's a lot of crazy guys out there.
they promise you the blue from the skies
it's just a big bunch of lies

so wait - contemplate
if he's made for you
his actions will speak louder than his words

love's a flirt
make it a game for two with happy ending.

follow your heart
(it's just life - you play a part)
be true from the start
(woman of virtue don't let him hurt you)
no no no no

guys - beware!
there's a lot of silly girls out there.
they want you to believe they are strong
but they don't know what's going on

so mate, check your date
if she's straight with you
and leaves you thinking of her day and night.

she's miss right,
so take a deep breath
and go tell her buddy

no no no no... (scat)

i dream of you

i dream of you - with stars in the sky
i dream of you - when gloomy clouds come by
even a thunderstorm is not to shake my ground
i dream of you - until you are around

love is nothing but a fantasy
as long as you are coming back to me

i dream of you - my world is a smile
i dream of you - the distance seems a mile
even if death us part it isn't so profound
i dream of you - until you are around

love is nothing but a fantasy
as long as you are coming back to me

i dream of you - our souls reunite
i dream of you - and travel through the night
put yourself in charge then life means living large
in dreams of you, we're soulmates linked at heart

bye bye, baby

if love is blind i'm a special kind
though i see i go by my mind
i believe his words yet foresee the hurt
when it comes, i say it's assigned

so when he told me under the apple tree
'my queen, there's noone like you'
thought this was love, yet the stars above
twinkled in a huff

it's the middle of july and i tell you eye to eye:
'babe, this is going nowhere!'
if you wanted me you'd be breaking free from her
what we have is so rare
but it's plain to see, you're not choosing me
so i'm telling you (good) bye

you can't be without me
but i can't be with you either
our love was a two-lane
now i've passed you can't be my leader

you won't do without me
now i won't be with you either
our love had a chance
but now it's passed so i'm saying: (bye)

it's the middle of july (...repeat as above...)
so i'm telling you goodbye

black & white world

everytime i hear our song
i don't miss you anymore.
i don't miss you anymore
like i used to

pictures of the past are gone
i don't paint them anymore
wouldn't know what for
i've forgotten

you are gone
took the colours of my life
left me in a black and white world alone
you are gone
took the colours of my life
left me in a black and white world alone

never knew where we went wrong
can't be bothered anymore
i don't wonder anymore
like i used to

promises we kept so long
we don't face them anymore
wouldn't know what for
they're forgotten

you are gone
took the colours of my life
left me in a black and white world alone
you are gone
took the colours of my life
left me in a black and white world alone
world alone world alone

a garden for two

what is this thing called love
how to be sure it's the real thing?
the moment that you
think you have a clue
it turns around to tragic

what is this thing called love
how can one tell when it's leaving?
what does it take
to keep love awake
are there rules to follow?

folks, it's a simple task
and it's not to much to ask:

love's a garden for two
it grows and blossoms and blooms
you have to tend it, water and plant it
keep the grass green on your side

folks - it's a simple task
and it's not to much to ask:

love's a garden for two
it grows and blossoms and blooms
you have to tend it, water and plant it
keep the grass green on your side.

love's a garden for two
like nature ruled by the moon.
on high tide it's high-flight
then next day it's cat fight
laugh it off... you'll be alright
